

October Newsletter

Important Upcoming Events

P.C.M.'s and Division Rally:

Presidential Council Meetings, oh yes P.C.M.'s. Well, not one person has a clue what they are. A presidential council Meeting is a regular meeting with the Lt. and the Presidents, or whoever else wishes to attend. These meetings are mandatory in order to be recognized for holding a Club Office.

For our division rally we will be participating in a joint service project assisting people with downs syndrome, or other similar conditions.

I will be in touch to communicate events with everyone, and the bi-weekly reminders to attend the P.C.M.'s.

P.S. - My phone number is 593-3083.

Membership

- Membership is also a big concern in our district. So bring your friends to meetings with you and have fun with your service. Do anything you can to increase your clubs membership in the next year.

Activities

On another note I would like to remind all of the clubs of the importance of communication. Communication will help in giving other clubs ideas or even give them the opportunity to work together in a joint service project.

The Butte Central and Butte High clubs along with the Builders Clubs from each school and the Montana Tech Circle K participated in order to raise funds for Trick or Treat for UNICEF. The five clubs raised \$1,082.87 for UNICEF on November 1st. Sixty-seven members participate in the two hour event. The Butte Central Kiwanis Advisor, Paul Vang, stopped to see how the event was going and had a slice of pizza and pop with the clubs. All the advisors were pleased with the success of the clubs.

A number of Butte High Key Clubbers also participated in the Special Olympics Basketball tournament, while the Butte Central Builders Club participated in the Bowling for Big Brothers Big Sisters program, and the entire Butte Central teams along with the Key Club served food for their Annual Thanksgiving Dinner

I would also like to be updated on other clubs service activities in order to feature them in the newsletter.

As Division 3's Lt. Governor

Communication

This next year I really want our division to grow strong and build unity. The number of service projects this year is increasing greatly. I would love if every school could be evolved in all of them. However starting small is the only way to achieve a big goal. If every club will put forth their best effort this year I think we can reach further than ever before and really rock out at the next divisional convention.

If any club needs help I am always available to help you. You can reach me on my phone 593-3083, or with the lieutenant governor e-mail ltgovdiv3@mtkeyclub.org.

Service Project

- Special Olympics

- Communication between clubs is what we need to get this division up and running again. Communication doesn't need to happen just with me. Communication happens by contacting me and or another president if you wish. By contacting other presidents the clubs can exchange ideas, and provide solutions to problems.

Meetings/keeping in touch

- I plan to hold monthly division meetings. (Hopefully)
- Reporter's reports and secretary reports will be due every month except the summer report that covers June to August, Thank you.
- Weekly Phone calls from and for Presidents will help a great deal.
- We will have a Division project this year. One possible project could be Special Olympics or something else. I will be in contact with my Division Club Officers who will help spread this information.

Trick or treat for UNICEF
