“During the pandemic, everything went out of order. In my country, schools were closed for about 3 years now and we are still not sure about reopening. I was worried because it scared me that my quality of learning will decline and I cannot hire a tutor financially. Since the pandemic has opened a lot of online opportunities... The global community amazed me. It was amazing a shared love for learning integrated how different people from different parts of the world.” -Christian A

“Although I've just been tutoring for 2 weeks, the experience has been immensely rewarding. I can't even put it into words. I see tutoring as one of my ways to be grateful for the knowledge that I've gained over the years. After joining SHW, I got to know the struggling of teachers out there that sometimes myself as a learner take for granted. Not only does tutoring help for improving your understanding in your subjects, but also in your confidence.”-Satrio B

“But know this, Without SHW I wouldn't be able to move on with my homeschool studies and generally academic subjects.... I would answer homeschool or simply "I don't go to school, but I do study at home”-Enrique C

“Dealing with learners from different diversity, region, culture is just amazing. Working with peers, to know more, host collaborative sessions/series, idea jams, healthy dicussions and this list goes limitless! You get a chance to improve your leadership skills, team management, nettiquettes, communication skills, foster new ideas, full support to your new ideas and what not. The volunteers here are so
