

SUMMER NEWSLETTER

**WHAT'S
HAPPENING THIS
SUMMER IN
DIVISION 5?**

INTRODUCTION

Hello everyone my name is Meredith Sackman. I am your new LTG for Division 5. My home Key Club is Terry Key Club, Terry Montana. This is my first official newsletter of my term so bear with me. My home Key Club is a small newly chartered club in eastern Montana. I am a Junior this year and have been in Key Club for 3 years and I am so excited to be serving Division 5 on the District Board.

GOALS

This year we are trying to emphasize on the senior challenge. For those of you who don't know what the senior challenge is, it is a challenge amongst clubs to see which club can replace their seniors with new Key Club members. The goal is to have every senior in your club find a freshman to replace them to get member numbers up. If your club doesn't have any seniors have juniors or sophomores try and recruit upcoming freshman to join Key Club.

CUSTER COUNTY KEY CLUB

This summer Custer County Key Club has collected blankets and donations for their local animal shelters. Their club also plans on painting and recycling old pallets to either auction or sell. Many of their members have been doing independent community services such as mowing lawns and pulling weeds.

TERRY KEY CLUB

This summer Terry Key Club has helped with Rock'N on the Corner. Witch was a fun community get together, with live music, good food, and a camping spot for everyone! The event was June 16th-18th and was held at the local Four Corners. Terry's Key Club helped out with taking shifts for fun games they came up with! For our future plans, Terry will do an annual local movie for the community. This will take place July 20th at the Terry High School football field. There we will be showing the Parent Trap, with an inflatable screen. As well as concessions! Terry also plans to volunteer at their local nursing home, spending time with the residents and having an ice cream social as part of an agreement for the hospital donating supplies to last year's movie production.

DAWSON COUNTY KEY CLUB

DCHS Key Club has worked with their local Kiwanis to raise flags on important holidays and take them down, They worked with their local library to help setup and take down a cultural festival in their local park. DCHS has helped several members of their community move. DCHS helped direct runners competing in a triathlon and sold tickets with their fair with their local Kiwanis. Their club has also been trying to work with our community collage or library to host an outdoor movie night with cardboard box cars as seats.

SIDNEY KEY CLUB

This summer Sidney Key Club plans on working along side with their Local Kiwanis group for a pie social at their local Veteran's park this July. The club actively volenteers at their local Boys and Girls club but this summer their schedule is full. Closer to the school year the club plans on putting together "Freehsman Survival" bags for their schools incoming freshman.
